

Sterilisation Services Qualification Review

Keeping you safe from infection

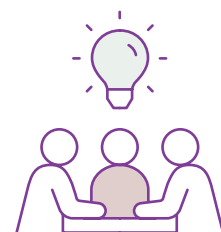

Sterilisation Technicians play a critical role in infection control and patient safety within healthcare facilities and during the last 10 years sterilisation practices have evolved significantly.

The Sterilisation Services Qualification Review project is a 12-month project to critically evaluate and update the HLT37015 Certificate III in Sterilisation Services and HLT47015 Certificate IV in Sterilisation Services to align them with current industry needs, regulatory requirements and safety and wellbeing outcomes.

Benefits of being involved

Your input is important and will:

- help align qualifications with current industry practices and regulatory standards
- ensure graduates and the workforce are equipped to perform their roles
- provide insight into real-world practices, modern techniques and opportunities for improvement.

How to get involved

Please visit humanability.com.au to learn more about the project and register for updates and consultation opportunities.
